

Export Documentation Checklist

Complete list of documents required by destination market

Markets: US · EU · China · Australia · Canada · Southeast Asia

Contact: Mc5896538@outlook.com | WhatsApp: +86 15866920149

HOW TO USE:

1. Select your destination market section. Use the Status dropdown to track each document.
2. [CRITICAL] items = mandatory for customs clearance. Missing these will hold your shipment.
3. NuCoreBio provides all documents marked "NuCoreBio Issues" as standard with each order.
4. Documents marked "Client Arranges" must be obtained by your company or freight forwarder.
5. Save and email to Mc5896538@outlook.com — our team reviews and identifies any gaps before shipping.

NuCoreBio US Import Support: We provide all documents marked [CRITICAL] above as standard with every shipment.
Contact us to review your specific import requirements: Mc5896538@outlook.com

■ ■ European Union

Regulation (EU) 2017/625 · Novel Food · Customs Union Import Procedure

- Certificate of Analysis (COA)**
HPLC potency + heavy metals (EU limits) + microbial (EU methods). ISO/IEC 17025 lab.
- EU Nutrition Declaration (Reg. 1169/2011)**
Mandatory EU format. Separate from US Supplement Facts. NuCoreBio supports label design.
- Novel Food Confirmation / Authorization**
Written confirmation that all ingredients comply with Novel Food Regulation (EU) 2015/2283.
- EU Allergen Declaration (14 allergens)**
All 14 Annex II allergens declared. MUST be highlighted in ingredient list on label.
- No FDA Disclaimer Confirmation**
Confirm label does NOT contain FDA structure/function disclaimer (prohibited in EU).
- Health Claim Compliance Statement**
Written confirmation all health claims are from EU authorized list (Reg. 1924/2006).
- Maximum Dosage Compliance**
Declaration that all vitamins/minerals are within EU member state maximum levels.
- MSDS / SDS (EU GHS format)**
EU CLP Regulation compliant SDS. Required for import classification.
- Certificate of Origin (EUR.1 or CO)**
Hainan FTP, China. Required for EU customs preferential tariff classification.
- Commercial Invoice + EUR.1 form**
HS code for supplement type. Invoice in EUR or GBP for UK.
- Importer of Record (EU or UK entity)**
EU importer must be established in the EU/EEA. Post-Brexit: UK separately.
- Food Business Operator (FBO) Registration**
Importer must be registered FBO in their EU member state.
- Pesticide MRL Compliance Report**
EU MRL limits (Regulation 396/2005) — more stringent than US. GC-MS/LC-MS.
- Country of Origin labeling on pack**
Required: "Made in China (Hainan Free Trade Port)" or equivalent.

China (Domestic / Re-Import)

SAMR / GACC · Health Food Registration · GB Standards

- GACC Registration (overseas manufacturer)**
 Overseas food producers must be GACC-registered to export food/supplements to China.
- China Health Food Registration or Filing**
 "Blue Hat" registration or filing required for health food products sold in China.
- Chinese-Language Label**
 All products must have Chinese-language label per GB 7718 food labeling standard.
- GB Standard Compliance**
 Active ingredients must comply with Chinese GB/T standards and permitted ingredient list.
- COA (Chinese version)**
 COA with Chinese translation. Testing by CNAS-accredited lab preferred.
- MSDS (Chinese version)**
 Chinese-language SDS per GB/T 17519 standard.
- Certificate of Free Sale**
 Issued by Chinese consulate or chamber of commerce in exporting country.
- Certificate of Origin**
 HS code for supplement classification under Chinese customs tariff.
- Import Customs Declaration (■■■■■■)**
 Arranged by Chinese customs broker. HS code 2106.90 or equivalent.
- Inspection & Quarantine Certificate**
 SAMR (formerly CIQ) inspection for food/health product imports.
- Chinese Business License of Importer**
 Chinese importer's business license with health food import scope.

■ ■ Australia & New Zealand

TGA ARTG · FSANZ · ABF Import Clearance

TGA ARTG Number (AUST L or R)

Product must be listed/registered on TGA ARTG before sale. Number on label.

COA matching TGA-approved specification

Must match the specification listed in the ARTG entry exactly.

TGA GMP Clearance

Evidence manufacturer holds TGA GMP Clearance or equivalent recognized certification.

Permitted Ingredients Compliance

All ingredients on TGA Permitted Ingredients list or separately TGA-approved.

ABF Import Declaration

Australian Border Force electronic import declaration. Broker arranges.

DAFF Import Permit (botanical ingredients)

Biological material may require biosecurity import permit.

Certificate of Origin

Hainan FTP, China. Australia-China FTA (ChAFTA) may provide duty reduction.

Commercial Invoice + Packing List

AUD or USD value. HS code for TGA-regulated therapeutic goods.

Label in English

All mandatory label elements in English per TGA requirements.

Sponsor Declaration (if applicable)

Therapeutic goods sponsor must be Australian entity.

NZ-specific: FSANZ compliance

For NZ distribution: FSANZ standards compliance declaration if food category.

■ ■ Canada

Health Canada NHP Regulations · CBSA Import · SOR/2003-196

- NPN (Natural Product Number) on label**
 Health Canada product license required. NPN must appear on label.
- COA matching NPN-approved specification**
 Must match the specification in the approved product license exactly.
- GMP Compliance Certificate (Site License)**
 Manufacturing site must hold Health Canada NHP Site License.
- Bilingual Label (English + French)**
 All mandatory label elements in both EN and FR. Legal requirement.
- CBSA Import Declaration (B3 form)**
 Canada Border Services Agency electronic import declaration.
- Certificate of Origin**
 HS code for NHP classification. CPTPP (CUFTA) duty preference may apply.
- Commercial Invoice**
 Canadian dollar or USD value. HS code for supplement classification.
- Approved Dose Form Confirmation**
 Dosage form must match NHP-approved dosage form in license.
- Health Canada NHP Importer Declaration**
 Canadian importer responsible for NHP compliance.
- Permitted Health Claims Only**
 Claims must match those in the NPN license. No off-label claims.

■ Southeast Asia (ID / SG / TH / MY)

BPOM · HSA · FDA Thailand · NPRA

■ Indonesia (BPOM)

BPOM Registration Number (MD or ML)
MD = domestic; ML = imported. Required before sale.

Halal Certificate (MUI/BPJPH)
Strongly recommended — often de facto required in Muslim-majority market.

Indonesian-language label
Label in Bahasa Indonesia mandatory for retail products.

COA translated to Indonesian or English
Both acceptable for BPOM submission.

■ Singapore (HSA)

HSA Health Supplement Notification
Notification required before marketing. Online via PRISM system.

Permitted ingredient list compliance
HSA Permitted List applies. Non-listed ingredients need approval.

Singapore English label
All labels in English. Singapore-specific advisory statements.

COA from accredited laboratory
ISO/IEC 17025 or equivalent.

■ Thailand (FDA Thailand)

Thai FDA Notification / Registration
Food supplement notification or registration depending on category.

Thai-language label (retail)
Thai language mandatory on retail labels.

Import Permit from FDA Thailand
Required for certain supplement categories.

COA (English acceptable)
English COA accepted for Thai FDA submission.

■ Malaysia (NPRA)

NPRA Product Registration (Notification)
Malaysian product notification/registration for health supplements.

Halal Certificate (JAKIM)
JAKIM Halal certification for Muslim market compliance.

English/Bahasa Malaysia label
Bilingual label preferred. Bahasa Malaysia for retail.
